Dear City Council,

We are 2nd graders at Washington Elementary School. We see that our school has a problem. Our intersection is not safe. Some people are speeding. Some cars are parked in the crosswalk We have seen parents backing up into the crosswalk. Kids are running across the road. The cross-walk paint is fading. There is too much snow not cleared.

We want to change this. We need your help. Will you help us?

Here are some of our ideas. We could use flags for crossing. Maybe we could get pedestrian lights. We would really like a rainbow crosswalk to help people pay attention. Or maybe we could get permanent cones.

Can we come talk to you at a city meeting to find out if you can help us get the money to fix this problem?

We want to keep kids safe.

Thank-you,

Ethan Polkemus
