

Memo

To: City Council
From: Kody P. Van Dyk, Public Works Director
CC: Mayor Logan
Date: 12/4/2015 (Updated)
Re: Preapproved Consultant Selection

A Request for Qualifications was published requesting a statement of qualifications from consultants in various categories. The RFQ stated that consultants would be selected based upon a scoring of their Statement of Qualifications (SOQs). Two city council members reviewed and rated each of the SOQs. Attached is a spreadsheet of those ratings and below is a list of the consultants selected in the various categories.

Wastewater – T-O Engineers, JUB Engineers, Terra Graphics Environmental Engineering, Mountain Waterworks and Manion Engineering

Water – T-O Engineers, JUB Engineers, Terra Graphics Environmental Engineering

Landscape Architecture/Design – JUB Engineers, HDR Engineers, Stanley Consultants, Breckon Land Design

Transportation – T-O Engineers, JUB Engineers, Terra Graphics Environmental Engineering, Plangineering, Precision Engineering

Green/Storm Water Design – T-O Engineers, JUB Engineers, Terra Graphics Environmental Engineering, AHBL

Geotechnical Engineering – TD& H Engineering, Allwest, Strata

Surveying – Glahe & Associates, T-O Engineers, JUB Engineers, Terra Graphics Environmental Engineering

Structural Engineering – JUB Engineers, DEA Engineers, JA Sewell Engineers

Electrical Engineering – MWH Engineering, AEI Engineering, Aldacor Engineering

Construction Management – T-O Engineers, JUB Engineers, Terra Graphics Environmental Engineering

Communications (Fiber Optics) – No responses

This roster fulfills the responsibility of the city to select a consultant without further submittals and review. The roster does not preclude the city from requesting proposals for projects for which the City believes will be better served by a separate selection process.
