4. Discussion of ADA Transition Plan
Discussion primarily focused on understanding the transition plan and what parts of it were of concern to the committee. Once the scope of the sidewalk problem was understood, the committee wanted the City to leverage its available funding to get the most work done possible. The committee felt that the current code requirement that property owners pay for adjacent sidewalk was fair. The committee passed the following motion:
“We support an aggressive plan for the City to bring all sidewalks up to current standards utilizing LIDs and various funding sources to assist private property owners to comply with existing code.”
Motion made by Mary Catherine Role, 2nd by Steve Nelson, unanimously approved.
5. Discussion about Complaint Driven Policy
The best method to get safe sidewalks in Sandpoint is to build public support
Enact a real estate point of sale requirement for installing/maintaining sidewalks
We support an ongoing, proactive approach to sidewalk maintenance
Funding an education program for sidewalks - to maintain & remove obstructions.
Clarify plan for enforcement of the code.
