1. QUESTION: I would like to get more info on the vehicles you intend to get service for, VIN #'s, and a list of regular service required

ANSWER: The year, make, and model of vehicles/equipment is provided within the RFP under Exhibit B, Vehicle List. For heavy equipment, only as-needed repairs would be performed on the City's heavy equipment, including fire trucks and, as such, pricing would follow the NON-ROUTINE REPAIR SERVICES portion of Exhibit A. There is no pricing requested for the routine services portion of Exhibit A, Pricing, for heavy equipment.

The City cannot guarantee all services listed in Exhibit A, Pricing, will be needed and/or required on all vehicles/equipment listed in Exhibit B, Vehicle List.
